DAUGHTERS OF WISDOM is an experiential and transporting view of contemporary Tibet seen through the eyes of some of its most extraordinary women, the nuns of Kala Rongo Monastery of Nangchen, Kham.

Founded in 1990, Kala Rongo is granting women choices they've never had before. Through the pragmatic vision of their benefactor, Lama Norlha Rinpoche, 300 nuns are now receiving religious and educational training previously unavailable to them. They are being given a real opportunity to preserve the rich spiritual heritage of their people, even as they slowly reshape it.

Some shy, some outspoken, all committed to the often difficult life they have chosen, the nuns graciously allow the camera into their vibrant spiritual community and offer us insight into their exemplary lives.
